

Appendix

eTable 1: List of sleep apnea codes according to the International Classification of Diseases, 10th edition

eTable 2: Positive predictive value of ICD-10 codes for the presence of obstructive sleep apnea in a sample of 18 patients treated in the private sector.

eTable 1: List of sleep apnea codes according to the International Classification of Diseases, 10th edition

DG473	Sleep apnea
DG4730	Sleep apnea with sleep related respiratory disease UNS
DG4731	Primary central sleep apnoea
DG4732	Obstructive sleep apnea
DG4734	Idiopathic sleep related non-obstructive hypoventilation
DG4735	Sleep related hypoventilation/hypoxemia due to medical illness
DG4735A	Sleep related hypoventilation/hypoxemia due to lung- or vascular disease
DG4735B	Sleep related hypoventilation/hypoxemia associated with lower respiratory obstruction
DG4735C	Sleep related hypoventilation/hypoxemia with neurological disease or disease in chest wall
DG4735D	Sleep related hypoventilation/hypoxemia due to CNS disease
DG4735E	Congenital central hypoventilation syndrome
DG4736	Central apnea due to medication
DG4739	Another central apnea due to disease

eTable 2: Positive predictive value of ICD-10 codes for the presence of obstructive sleep apnea in a sample of 18 patients treated in the private sector.

	Sample of 18 patients treated in the private sector	
	ICD-10 code DG473* (‘Sleep apnoea’) – n (%)	ICD-10 code DG4732 (‘Obstructive sleep apnoea’) n (%)
Total, n (%)	7 (15.0)	11 (85.0)
Positive predictive value	100 (64.6 -100)	100 (74.1-100)
