

Supplementary material

Supplementary Figure 1. Sex distribution of referred patients

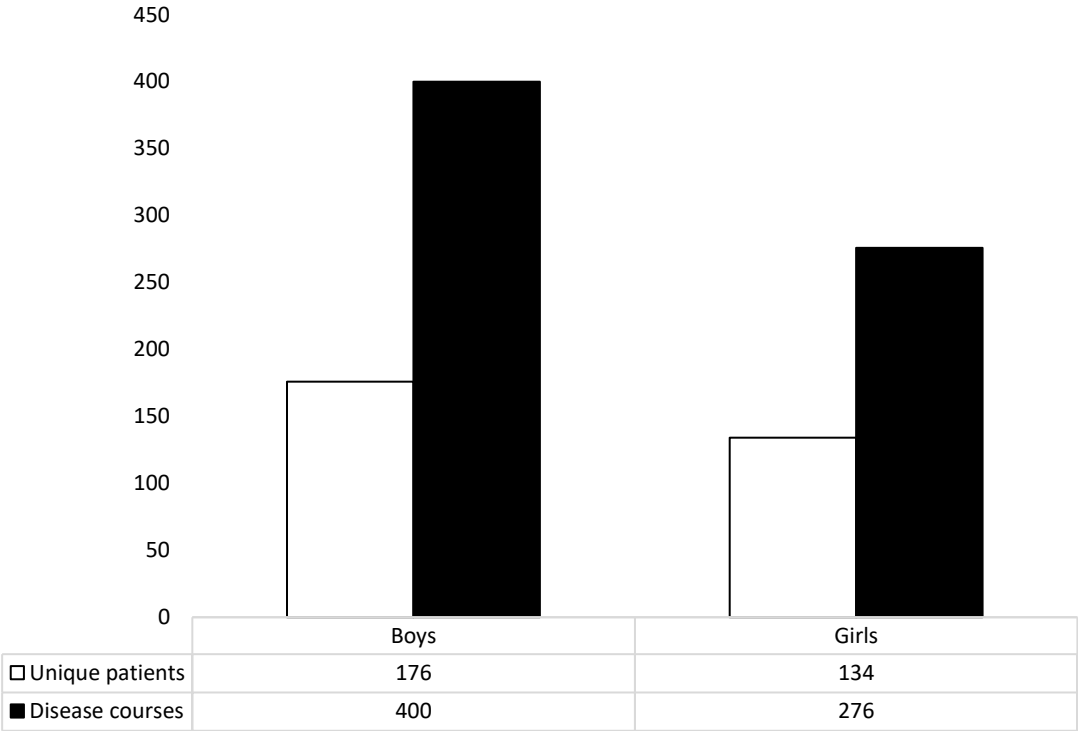

Supplementary Figure 2. Seasonal overview of referrals from Greenland to Rigshospitalet

Supplementary Figure 3. Management of Greenlandic patients by outpatient and inpatient care

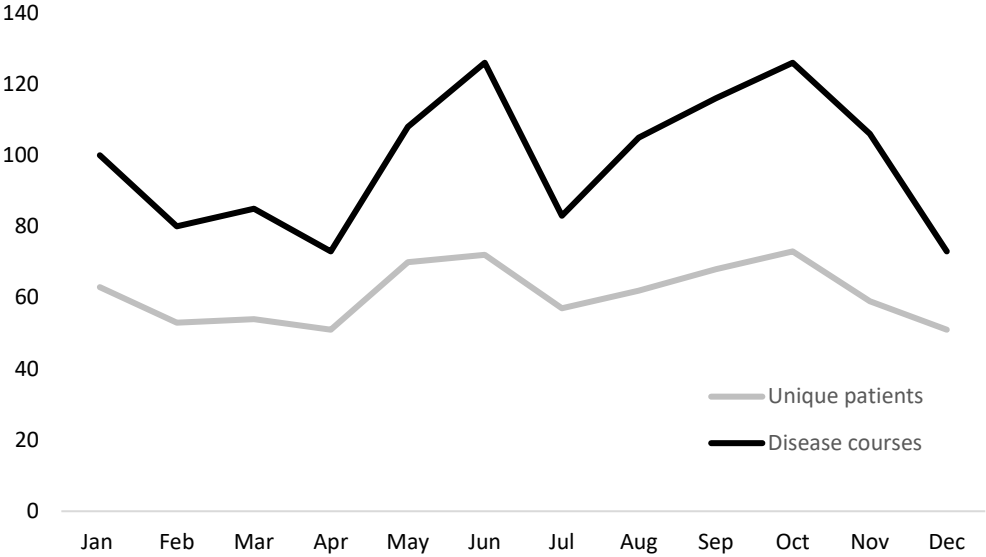

Supplementary Figure 4. Proportion of referrals from Greenland for each sub-specialty by congenital/ genetic or acquired cause

Supplementary Figure 5. Distribution of referrals from Greenland to Rigshospitalet by centres

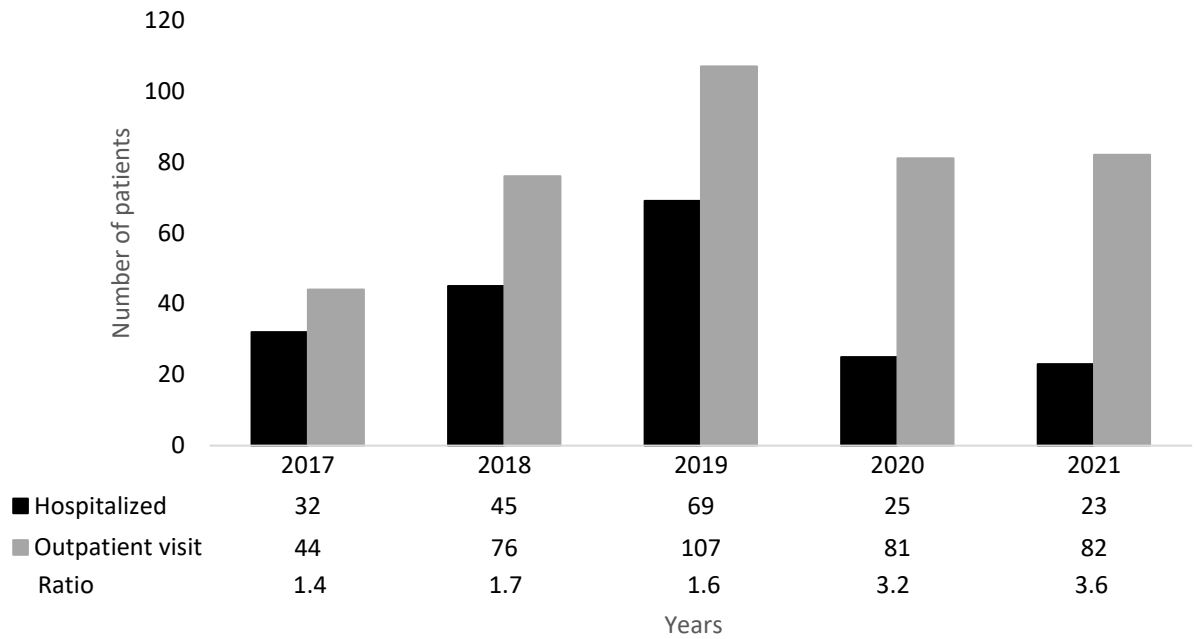

Supplementary Figure 1. Sex distribution of referred patients

Supplementary Figure 2. Seasonal overview of referrals from Greenland to Rigshospitalet

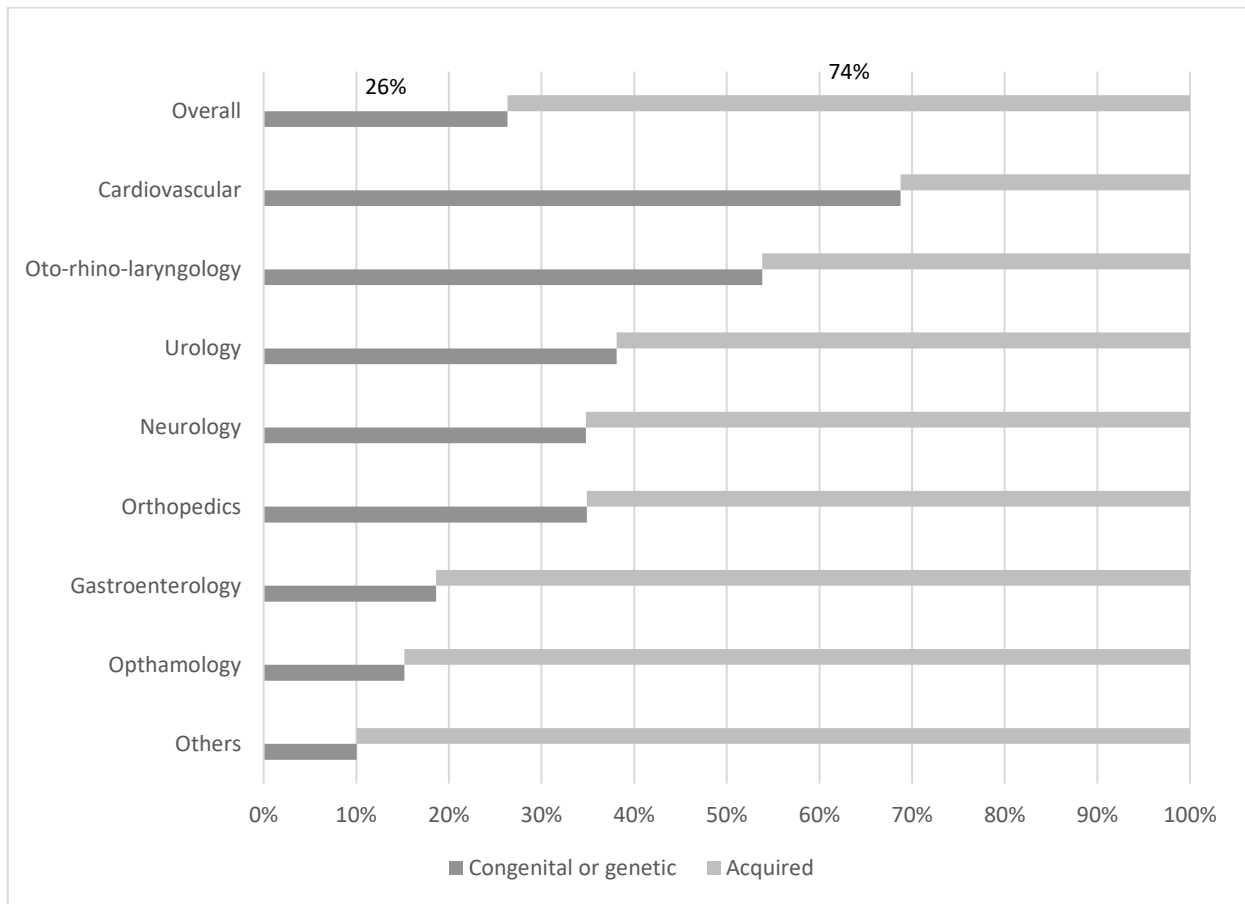

Supplementary Figure 3. Management of Greenlandic patients by outpatient and hospitalization care as measured by disease courses.

The ratio is calculated as outpatient visits divided by hospitalizations for each year

Supplementary Figure 4. Proportion of referrals from Greenland for each sub-specialty by congenital/ genetic or acquired cause

Note that the percentages are for each sub-specialty and there are large differences in absolute number of patients by each sub-specialty

Supplementary Figure 5. Distribution of referrals from Greenland to Rigshospitalet by centres
