Please save/export the filled in **form as PDF** before submitting it to Ugeskrift for Læger or Danish Medical Journal.

Date: 17. november 2021

Your name: Hanne Nygaard

Manuscript title: Frailty screening for elderly acutely admitted patients – comparison of two major models

Manuscript number (if known):

In the interest of transparency, we ask you to disclose all relationships/activities/interests listed below that are related to the content of your manuscript. "Related" means any relation with for-profit or not-for-profit third parties whose interests may be affected by the content of the manuscript. Disclosure represents a commitment to transparency and does not necessarily indicate a bias. If you are in doubt about whether to list a relationship/activity/interest, it is preferable that you do so.

The following questions apply to the author's relationships/activities/interests as they relate to the current manuscript only.

The author's relationships/activities/interests should be defined broadly. For example, if your manuscript pertains to the epidemiology of hypertension, you should declare all relationships with manufacturers of antihypertensive medication, even if that medication is not mentioned in the manuscript.

In item #1 below, report all support for the work reported in this manuscript without time limit. For all other items, the time frame for disclosure is the past 36 months.

		Name all entities with whom you have this relationship or indicate none (add rows as needed)	Specifications/Comments (e.g., if payments were made to you or to your institution)
<b>Time frame: Since the initial planning of the work</b>			
1	All support for the present manuscript (e.g., funding, provision of study materials, medical writing, article processing charges, etc.)  <b>No time limit for this item.</b>	<input type="checkbox"/> None Data used in the manuscript are the danish part of an international multicenter study headed by Magnolia Cardona Morrell MPH, PhD. Senior Research Fellow The Simpson Centre for Health Services Research SWS Clinical School and the Ingham Institute for Applied Medical Research PO Box 6087 NSW, Sydney NSW 1466 m.cardona-morrell@unsw.edu.au	I was part of the Danish data collection team. The work was not funded. The effort was rewarded with access to the Danish data and an invitation to co-authorship resulting in two published articles using the full set of international data. 1. Cardona M et al. Efficacy of a tool to predict short-term mortality in older people presenting at emergency departments: Protocol for multi-centre cohort study. Arch Gerontol Geriatr. 2018 May-Jun;76:169-174. doi: 10.1016/j.archger.2018.02.014. Epub 2018 Mar 6. PMID: 29524917 2. Cardona M et al. Predictive validity of the CriSTAL tool for short-term mortality in older people presenting at Emergency Departments: a prospective study. Eur Geriatr Med. 2018;9(6):891-901. doi: 10.1007/s41999-018-0123-6. Epub 2018 Oct 31. PMID: 30574216

		<p>Head of the Danish data collection team have been contacted and informed about the writing of the manuscript prior to initiation.</p> <p>Mikkel Barbrand MD, Professor. Universitets Hospital Odense and Hospital South West Jylland. mikkel.brabrand@rsyd.dk</p>	<p>He has accepted the project and the use of his part of the Danish data for the specific purpose of this manuscript.</p>
